Since 1988 we have specialized in limited edition, handcrafted copper weathervanes. We currently have over 600 designs that we make for people all over the world. Each sculpture is a signed, dated and numbered limited edition work of art and most are available in a variety of sizes. This gives our customers almost unlimited choices of where they can display their weathervanes (rooftop, garden, deck, balcony, cupola, barn, gazebo). Each of our vanes is built to individual order - our customers include individuals, designers, architects, businesses, public enterprises and governmental organizations. In addition, we are known in the trade for our ability to do special commission weathervanes.
